

# Fulfilling America's Promise

Across America, both urban and rural communities, at various times in their lives Americans face the challenges of poverty and need a helping hand to help themselves. Community Action Partnership of Orange County brings together diverse resources, both private and public, to work with local communities to transform the lives of poor and disadvantaged by building communities through community action, strengthening families, averting crisis, managing limited resources, and improving housing conditions.

Community Action changes people's lives, embodies the spirit of hope, improves communities, and makes America a better place to live. We care about the entire community, and we are dedicated to helping people help themselves and each other.

## OUR PROGRAMS ARE:

- Orange County Food Bank
